About nine months ago I was introduced to the wonderful world of creating wealth on the internet. Not that I hadn't researched it before, because I had a gut feeling that I could somehow make money online on autopilot if I found the right legitimate internet business. I looked for ways to make money immediately online, and found many legitimate online income opportunities.

One that caught my eye was Carbon Copy Pro, which has had rave reviews. Others I have found among many, which I think are online money making systems that really work are StoresOnline and Russel Brunson's dotcomsecrets. (Costing around \$2,500.00 to \$6,000.00-dependending on which way the wind blows that day.) I tried a couple of programs such as Underground Cash Secrets, and Ebay success. (Cheaper programs ranging from \$19 to \$49.) Well, I wouldn't say that they wont work, because I think almost any program, if marketed correctly, and is a quality system, will almost always launch a residual income online automated.

But when I discovered the IPC program ([www.WebWealthCreation.com](http://www.WebWealthCreation.com)) and IPC Instant Cash ([www.StreamlineCashFlow.com](http://www.StreamlineCashFlow.com)) (by far my favorite, for several reasons which I will touch on in this article) and the brand new Home Income Alliance, I knew I had found a legitimate online income opportunity with which I would make money online on autopilot. It offered a turn key automated website. This turn key website was designed by professionals and is based on a legitimate internet business that truly generates a cash flow online and creates wealth online.

I also tried and used cheaper and inferior programs such as [www.ez20usd.com](http://www.ez20usd.com) (Which is not too bad to use as a lesser online cash flow on the side, and I do believe it would reach its fuller potential later.) However, StreamlineCashFlow was still my favorite. I am going to give you eight reasons why you should consider creating wealth on the internet and make money online on autopilot:

First: The low cost.

Most of us know what a tremendous capital outlay one needs to start a new business. But with [www.StreamlineCashFlow.com](http://www.StreamlineCashFlow.com) you don't need such a great capital outlay. (Only \$97.00 for all your training, manuals, money making videos and software. After this capital outlay, you would need to register a domain name with a company such as Godaddy.com. Although this is not necessary, because you already get your website with the IPC Instant Cash Program. But you don't get your own domain.

It is always better to have your own domain such as [www.streamlinecashflow.com](http://www.streamlinecashflow.com) rather than [www.streamline.ipcinstantcash.com](http://www.streamline.ipcinstantcash.com). With the former your turn key money making website is branded and you can market your automated wealth creating website that makes money online on autopilot using certain proven techniques. With the latter, it is much more difficult to do.

Registering a domain only costs about \$9.95 and you may get it cheaper when Godaddy is running a special. Then you have to host it. I use siteocity.com which gives you several domains. It costs me \$23.00 something per quarter, or about \$7.00 something per month. Lunarpages.com is another great hosting company, as is hostgator.com.

This capital outlay for a online business for work at home moms and work at home dads is very minimal. It doesn't take that much money to use this way to make money immediately. The thing is that you need to start driving traffic to your turn key automated website that makes money on autopilot and creates wealth online. There is the paid way and the free way to drive traffic to your site.

At StreamlineCashFlow.com you will learn all you need to know about driving traffic to your site. Once people discover your site, the site sells itself. Of course not everyone that goes to the site buys into it, but many will. Can you make money immediately online? The way to do this is by Pay Per Click. Google offers a program called Pay Per Click. You choose your keywords and keyphrases, and you will pay whatever you say you would for Google to charge you if people pay on it. It can be as much as whatever you want to bid, but you should keep it at close to or less than \$.78 or somewhere in that range.

This is the way to make money online on autopilot immediately. Now you have to be careful, because if you don't know what you're doing, you may wind up making Google rich and having everyone and his brother clicking on your ad. You have to target market. There are ways to do PPC or Pay Per Click that works and create wealth online and make money online on autopilot. Any internet entrepreneur can do this.

Then there is the free way, called "organic rankings." StreamlineCashFlow and WebWealthCreation will show you how to reach top rankings in Google, Yahoo, Bing (MSN) etc but it takes time. It's free but it takes time. But if you keep with the system, you will drive more traffic with free traffic than paid traffic to your website. You can literally launch your online cash flow and residual income online within less than 24 hours. Or even within 8 hours, but I highly suggest you study the turn key automated website that makes money online on autopilot first.

You will not have to sell anything, or call nobody, or pitch a sale. You can reach success in life, financial freedom, financial prosperity and financial independence online with this automated cash flow system. All sales and delivery is done by your own turn key website.

So reason number one for creating wealth on the internet online is its low cost. Any internet entrepreneur whether a beginner or a pro can do this. You can work at home or anywhere you want. Even when you are not working, your turn key automated website is working for you and making money on autopilot. This is a great way to launch a residual income online and enjoy a residual cash flow for years to come.
